Computer and Internet usage at 2018 State Championships

If you want to use your personal devices in order to connect to the Internet during the State Championship, you will need to download (and install) the necessary security certificate onto your device. You can do this at any time by going to our website: http://nasd.k12.pa.us/filtering

We will have an open wireless network for you to connect to, but without the security certificate, your internet browser may not work well.
