Good Morning Teams!
Due to the number of teams competing in our State Competition, we will be scheduling STEM Presentations and Design Notebook judging/interviews based solely on teams who pre-register for each part of the competition. PLEASE read this email carefully so that you do not miss out on your team's opportunity to participate in both. Please fill out the following form for EACH team that you have competing in our State Championship Event
https://form.jotform.com/80364508254153
Contact information for the team coach/mentor should be provided in case we need to contact you with any questions. Form submissions are due no later than Monday, February 12 at 11:59pm in order for us to schedule the appropriate judges for each division and category. Teams are not able to request a specific time for their judging. Judging will begin at 8:30 am each morning and continue until completed. You will be informed of your team's presentation time and location upon check-in the day of the event. Engineering notebooks need to be turned in at the time of check-in or they may not be eligible for consideration. Please note that if your team is not all present at the time of judging, we will not reschedule. Please come to the event prepared to begin immediately. We will not consider ANY late submissions or requests. We schedule judges based on the number of participating teams.
Thank you and we look forward to your students presentations at States!
