VEX IQ Challenge

Live Remote Tournament

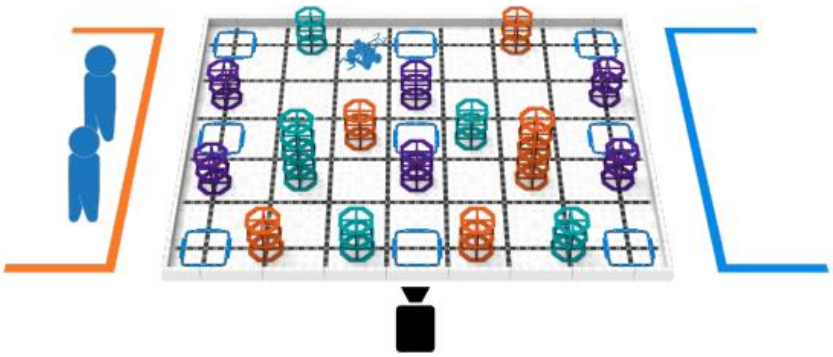

Field Inspection Checklist

Team Number:_____ **Division**: _____

The purpose of the Field Inspection Checklist is to ensure the team is prepared for participating in a Live Remote Tournament. Inspection confirms all elements of the team's field (field elements, game pieces and robot) are set up in the correct starting positions and the field is viewable throughout the matches. If a team does not pass a field inspection item, the Head Referee or EP can work with the team prior or during the event to assist with compliance. *Ultimately, it is the team's responsibility to meet the criteria prior to each match in a timely manner.*

Inspection Item	Rule #
☐ Proper lighting and external USB webcam (720p or higher resolution) allows for viewing of Driver(s), Robot, Controller, and the entire field (field perimeter and game/field elements).	**System Requirement**
Webcam is (See Figure below): ☐ Secured (not handheld) ☐ At an elevated height (~5' above height of field) ☐ Facing the field from the audience side (side opposite the robot starting positions) ☐ At the center of the field with an unobstructed view of the scoring goals and Drive Team	**System Requirement**
☐ Team demonstrates proper field setup with 6 Risers of each color. (See Figure below)	**<LRT3>**
☐ Team demonstrates knowledge of both legal Robot Starting Positions.	**<G4>**
☐ Team Facilitator is present for all matches and his/her phone number is available to the EP. Team Facilitator Policy and Requirements in LRT Team Instructions.	**System Requirement**

** Field passes inspection when all check boxes are complete, and this form includes inspector and team signatures.*

Final Inspection *(Circle when passed)* **Pass**

☐ Team verbally agrees to maintain the field inspection requirements for the duration of the Live Remote Tournament.

Inspector Signature: _____ **Date:** _____
