

I would like to welcome you to the Greenville VEX IQ “Full Volume” Tournament this FRIDAY, February 02, 2023. I apologize if there has been some confusion about the date. This is a professional development day for our district, so only the competing students will be in attendance. Choosing a Friday was based on feedback from teams in our area who have requested opportunities to compete during the week.

This event will be held in the 6th grade gym at Travis Intermediate. The address is 3201 Stanford St., Greenville, TX 75401. See the image below for information about where buses will drop off and where all others will park and enter.

An updated agenda will be posted later this week in RobotEvents.

If your team is not in the building by 9:00AM and I have not heard from you, I will assume that you are a “no-show” and you will be withdrawn from the tournament and not allowed to compete. This will be strictly enforced.

If you would like to make your day a little less stressful, let us take care of lunch for you! We will offer Papa John's pizza for \$10 for a large one topping pizza if ordered by this Thursday, January 31st by 3PM. Payment is due at registration, and cash is preferred. This is an easy way to provide a hot lunch delivered to your students. See the QR code below. The link has also been placed on the RobotEvents page for the tournament.

We will have a concession stand for your convenience.

Practice Fields– We will provide 1 practice field for your convenience, but we would need a team to bring a set of game elements. Please text or email me if you are able to bring a set of game elements. Teams are welcome to bring their own practice fields, but please remember that it can be used by other teams when you are not using it.

Each team will have a maximum of 3 driver skills runs and 3 autonomous runs. I highly advise you to get these runs in early. We will close the skills field before qualification matches are complete. A warning will be given 30 minutes prior to the close of skills.

Please have each student and parent complete the “Participant Release Form.” They should be completed by Wednesday at 5:00.

Families and friends are welcome in the public spectator area. Pit access requires prior approval through the Pit Pass form. Only approved adults (coach, mentor, parent, etc.) can visit the pit. Pit Pass registration closes Wednesday, January 31st. The pit area will be opened briefly for lunch, and an additional room will be opened for students to eat together with visitors if more space is needed.

If you have a letter change for a robot that has been previously registered, please email me the change so this can be taken care of before Friday.

Thank you for reading. Please reach out with any questions. I look forward to seeing everyone on Friday. Good Luck!
