VEX IQ Robotics Competition 2024-2025: Rapid Relay

Tagged: RSC9

Welcome to the official VEX IQ Robotics Competition Question & Answer system, where all registered teams have the opportunity to ask for official rules interpretations and clarifications. This Q&A system is the only source for official VIQRC Rapid Relay rules clarifications, and the clarifications made here from the Game Design Committee (GDC) are considered as official and binding as the written [Game Manual](#) itself.

Please review the [Q&A Usage Guidelines](#) before posting. This system is only intended for specific VIQRC Rapid Relay rules questions.

- For event, registration, or other competition support questions, please contact your [REC Foundation Regional Support Manager](#).
- For VEX technical support, contact support@vex.com or sales@vex.com.
- For game questions, suggestions, or concerns outside of specific and official rules questions, contact GDC@vex.com

2225: Skills autonomous - resting robot and the balls

26-Oct-2024

RSC9

<RSC9> It has recently been noted that if a robot is reset during an autonomous skills run, balls can be taken off the field as well. When the robot is reset to the starting position, is the robot allowed to restart with one ball in its possession? is the second ball allowed to be placed in starting zone 1 again? If it could be clarified what happens to the balls after resetting.

Answered by committee

As mentioned in the revised rule from [Q&A 2193](#), Balls removed during this <RSC8> interaction can be returned to the Field through the Loading Station or by being Rapid Loaded.

RSC8aii. All Balls must be removed from the Robot and from the Field, and can be returned through the Loading Station or Rapid Loaded.

- Is the robot allowed to restart with one ball in its possession? ---> No.
- Is the second ball allowed to be placed in starting zone 1 again? ---> No.
