

Q&A

VEX U Robotics Competition 2026-2027: Override

Welcome to the official VEX U Robotics Competition Question & Answer system, where all registered teams have the opportunity to ask for official rules interpretations and clarifications. This Q&A system is the only source for official VURC rules clarifications, and the clarifications made here from the Game Design Committee (GDC) are considered as official and binding as the written [Game Manual](#) itself.

Please review the Q&A Usage Guidelines before posting. This system is only intended for specific VURC rules questions.

- For event, registration, or other competition support questions, please contact your [Regional Support Manager](#).
 - For VEX technical support, contact support@vex.com or sales@vex.com.
 - For game questions, suggestions, or concerns outside of specific and official rules questions, contact GDC@vex.com

3134: Match Loading Cups in Autonomous

14-May-2026

VUG4 states:

Different availability of Loaders. Drive Team Members may add Match Load Pins to the Loaders adjacent to their Alliance Station during the Autonomous Period and Driver Controlled Period of the Match.

Does the specification of Pins imply that Cups may NOT be loaded during the Autonomous Period?

Answered by committee

The intent of VUG4 is to allow the introduction of both types of Match Load Scoring Objects (Pins *and* Cups) during the specified periods of the Match. This wording will be corrected in the June 4 game manual update.
